

BE-QUILT NEWSLETTER

MULTICENTRIC CLINICAL TRIAL

100% **Milestone achieved**
Inclusion complete!

We are pleased to announce that the BE-Quilt study has successfully reached **100% of its inclusion target**.

Thanks to the outstanding collaboration of all participating centers, a total of **296 patients** have now been randomised across 14 sites. This marks the **formal closure of the recruitment phase** of the study.

We would like to sincerely thank all investigators, study coordinators, and site teams for their continuous efforts alongside daily practice. This achievement reflects a strong collective commitment to high-quality multicentric research.

As always, please feel free to contact us at BEQuilt@uzleuven.be if you have any questions or encounter challenges regarding study follow-up, data entry, or documentation.

Ensuring high-quality follow-up

With recruitment completed, the continued success of the study now depends on **consistent and high-quality follow-up**. We kindly ask all sites to focus on:

- Timely follow-up visits according to protocol
- Complete and accurate data entry in REDCap
- Prompt response to data queries
- Continued (S)AE reporting and documentation
- Ensuring patient follow-up until End of Trial (EOT)

High-quality follow-up data is essential to safeguard the robustness and generalisability of the final analyses.

REDCap update - Adjuvant therapy

A small change has been made in REDCap at **Visit 3** regarding adjuvant therapy data. Previously, only **one start date** was requested if any adjuvant therapy was selected. To better support study endpoints, a start date is now requested **for each selected adjuvant treatment**.

Which adjuvant treatment did the patient receive?
Radiotherapy chest wall/Radiotherapy MSP - Date
* must provide value

No adjuvant treatment
 Radiotherapy chest wall
 Radiotherapy MSP
 Chemotherapy

Pls enter date Today D-H-Y
Please provide date

Chemotherapy - Date
* must provide value
Pls enter date Today D-H-Y
Please provide date

To reduce retrospective work, a query will be send out for fields that need updating.

Need advice or support with documenting essential study materials? Feel free to reach out to our monitors for assistance:

- Regina Zucker: regina.zucker@uzleuven.be (00 32 16 34 31 79)
- Linde Besard: linde.besard@uzleuven.be (00 32 16 34 42 58)

Site updates

Thanks to the strong engagement of all participating sites, the **recruitment target was reached ahead of the anticipated timeline**.

296
Patients
included

Sites

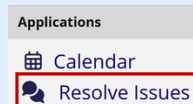

N° of patients enrolled

• AZORG - Aalst	27
• AZ Sint Lucas - Brugge	21
• AZ Turnhout	19
• AZ Delta - Roeselare	13
• CHC MontLégia Liège	13
• CHwapi - Tournai	11
• UZ Gent	9
• Saint-Luc UC Louvain - Brussel	8
• GZA-ZAS - Antwerpen	7
• AZ Sint-Blasius - Dendermonde	7
• Heilig Hart Ziekenhuis - Lier	6
• AZ Groeninge - Kortrijk	2
• ZOL - Genk	1
• UZ Leuven	152

Recruitment status: CLOSED at all sites

Data queries in REDCap

An overview of all data queries can be found in REDCap via the **left-hand menu** within the project by selecting "**Resolve issues**" under "**Applications**".

This page displays all open and resolved queries and allows you to quickly identify which records or fields require attention. Queries can be filtered (e.g. by status or assigned user) and opened directly from the table for review and resolution.

Next payment round

The next payment round is scheduled for May 2026. Please note that **payments are calculated based on data entered and completed in REDCap**. To ensure timely processing, please make sure to:

- Complete the eCRF for **all included patients**
- Review and resolve **any outstanding queries**
- Avoid leaving any fields blank

For fields where information is missing or not applicable, remember to use the **"M" button** as described a previous newsletter. Incomplete or missing data may delay or reduce compensation.
